Established in 1859, the UIC College of Pharmacy stands as the oldest academic unit of the University of Illinois, one of the largest and most comprehensive research universities in the nation. Our College enjoys a national reputation for excellence and has been ranked among the top colleges of pharmacy for scholarship, curriculum, and the quality of faculty and students.

In 2010, the College of Pharmacy added an additional campus in Rockford, IL where students can benefit from small class sizes and personalized attention. The College of Pharmacy is viewed as a single institution with one accreditation but two campuses: Chicago and Rockford. Students in Rockford complete the identical curriculum as students on the Chicago campus. The core classes are taught via distance education using state-of-the-art technology.

Updated October 2018
Rural Pharmacy Education Concentration (RPHARM)

Overview

Demand for pharmacists is often high in rural communities where access to medical services may be limited. The concentration in rural pharmacy services, also known as the Rural Pharmacy Education Program (RPHARM), is an option within the Doctor of Pharmacy degree program. The goal of the RPHARM concentration is to educate students about the unique challenges and opportunities present in rural communities and to prepare them to practice pharmacy in a patient-centered and interprofessional manner.

Select students are admitted to the RPHARM concentration. These students typically come from rural backgrounds or are interested in practicing pharmacy in a rural community. Students enrolled in this concentration learn alongside students from the College of Medicine’s Rural Medicine (RMED) program and the College of Nursing’s Rural Nursing (RNURSING) program.
1st year

Topics
- Population-Based Approach to Rural Health Care
- Agricultural Hazards, Toxicology & Farm Safety
- Development of Health Resources in Rural Communities
- Rural Mental Health Issues
- Community-Based Rural Health Research

Trips
- No Harm on the Farm
- Marshall (Central Illinois)
- Southern Exposure (Southern Illinois)

Projects
- Shadowing Rural Pharmacist
- Shadowing Rural Physician

2nd year

Topics
- Rural Clinical Cases and Discussion
- Rural Elderly Issues
- Rural Ethical Situations
- Community-Oriented Primary Care (COPC) Project
- Clinical Case Simulation

Trips
- Northern Exposure (Northern Illinois)

Projects
- 4-H Health Jam
- Shadowing 3rd Healthcare Professional

3rd year

Topics
- Institutional Review Board (IRB) Process
- Practice Locations and Career Options
- Clinical Case Simulation

Projects
- Rural Community Assessment
- Development of Community-Orientation Primary Care Project
- IRB COPC project submission
Benefits

★ Work and learn with medical and nursing students for 4 years
  • Same classes
  • Same assignments
  • Become accustomed to working with other health care professionals

★ Provides a network of peers and future colleagues that have similar life experiences
  • All students in the program understand the advantages and disadvantages of growing up and living in a small community

★ Rural coursework makes up 6 of the 13 required elective credit hours

★ Complete half of your 4th year rotations in the same rural community
  • Rotation sites are available throughout the state

★ By the time you graduate, you will have:
  • Created a research project
  • Experienced the IRB process
  • Completed a research project, including data collection
  • Presented your research project at Research Day

★ Graduate with a PharmD and a concentration in rural pharmacy services (the graduate school version of a minor)

Application Process

1. Contact the Director of the Rural Pharmacy Education Program
   a. Heidi Olson, PharmD at holson6@uic.edu

2. Interview with RPHARM faculty/staff

3. Receive RPHARM concentration acceptance letter

4. Sign RPHARM pledge
“The tradition and education provided at UIC is unmatched by rival pharmacy schools within the state.

The Rural Pharmacy (RPHARM) program, offered exclusively on the Rockford campus, has prepared me for my future in rural healthcare.

The relationships I have built on the UIC Rockford campus with fellow students and faculty have had a significant impact on me as a person, professional, and pharmacist.”

~Dr. Kevin Askew, PharmD Class of 2015, Clinical Pharmacist, Gibson Area Hospital & Health Services, Gibson City, IL

“I wanted a profession that I could help and interact with a wide variety of people.

I chose UIC because of their reputation as a great school.

I chose Rockford for the Rural Pharmacy (RPHARM) program and the smaller classroom setting.”

~Dr. Elise Wildman, PharmD, Class of 2015, Clinical Pharmacist, St. Mary's Hospital, Centralia, IL
Rural Health Professions Mission
The Rural Medical Education (RMED) and Rural Pharmacy Education (RPHARM) Programs at the UIC Health Sciences Campus - Rockford train and support physicians and pharmacists in rural Illinois using an interprofessional approach.
